

WHAT TEACHERS SAY:

San Jose High School

"RealTalk was able to provide a safe space for our students to get information that they otherwise may not seek out. They felt comfortable asking questions of the presenters, which was awesome! It was a frank and honest conversation, which is what the students always ask for. We appreciate the support and resources that were provided. I look forward to continuing this partnership in the coming years."

Santa Clara High School

"I have seen the Real Options presentations several times and they always do a great job."

Overfelt High School

"It was perfect; engaging and entertaining."

Branham High School

"RealOptions provides an outstanding presentation on sexually transmitted diseases and their prevention. Speakers and activities are engaging and able to make very effective connections with high school students. The program has been of great value to the students at Branham High School."

Del Mar High School

"The RealTalk Educators are awesome and totally connect with students via stories. I love the encouragement to value and respect oneself!"

Metro Ed

"RealOptions is a great program that gives kids a choice I have had other programs come and take about sexual education with my students, but RealOptions talked to them not as a lecture but as real people knowing they will make their own decisions. With the speakers being open to discuss their personal lives it allowed students to feel they are being shown by example."

Valley Christian High School

"The presentation was very clear and informative and opened the eyes of my students to many things they have not heard of."

Overfelt High School

"[The RealTalk Speaker] was amazing!! The students were totally engaged and I loved her energy :-). Looking forward to seeing her again!"
